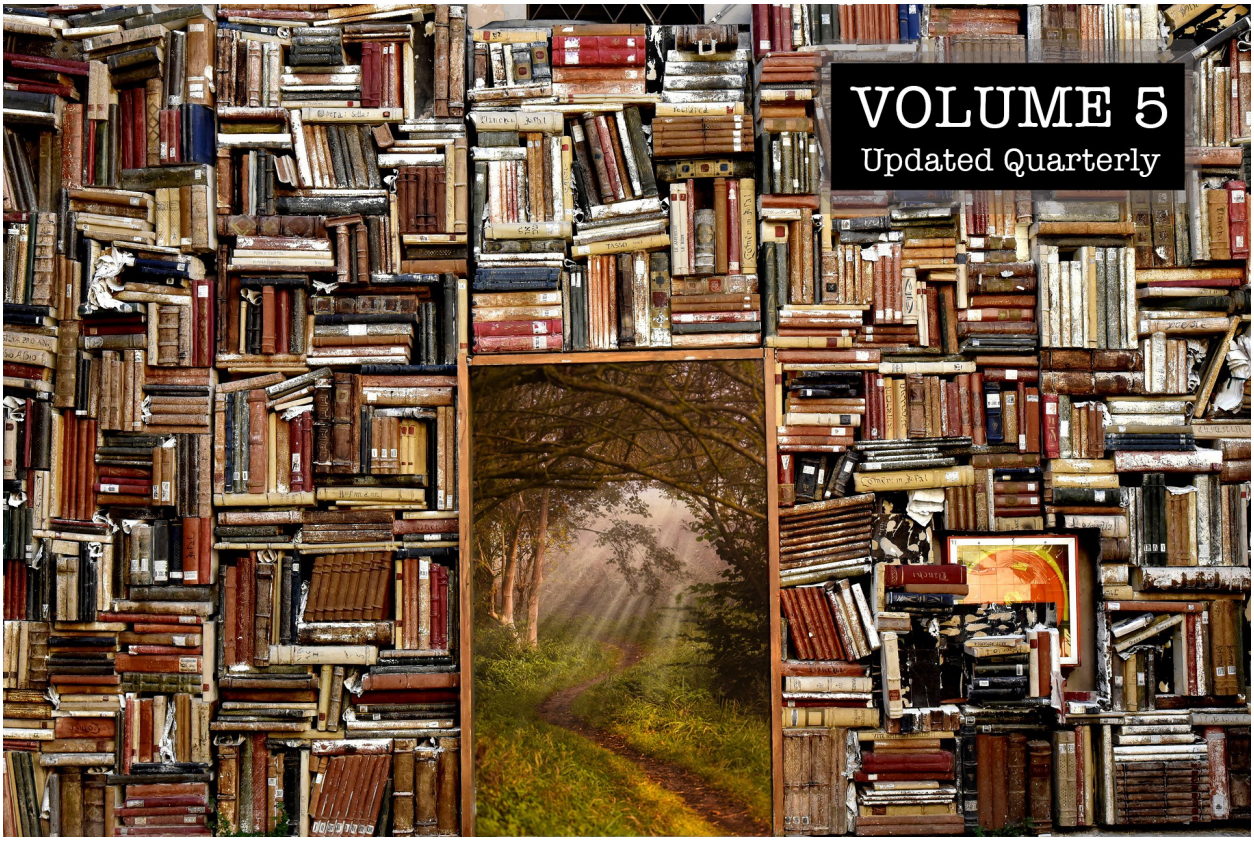
A Library for Redpilling and Survival: Volume 5

By Corey Lynn



Below is a library catalog with direct links to Corey's Digs investigative reports and videos that break the reports into categories, as well as fantastic resources and tools for researching and fact checking! This catalog is updated quarterly and is available in pdf downloaded for free in The Bookshop, where dozens of investigative reports are also available for download.

Be sure to check out the newly added solutions category, because there are many ways to combat the tyranny, build around the system, and protect yourselves and your community. We must come together and support one another to stand strong against those who wish to enslave us, and create a better future together.

The Library Catalog

Most of my reports include extensive timelines, some with maps, players involved, money flow, and how it all connects. I expose the nests, webs, and operations in a comprehensive but easy-to-follow format, and link to all evidence. These are not typical articles – they are dissections, though there are many shorter articles in this library as well. Most of my lengthier reports can also be found in **The Bookshop** available in PDF download.

This video below is **KEY** to understanding how the entire healthcare industry operates, who is really running the show, how they influence policies, prioritize funding for health issues, and ultimately use taxpayer dollars to do it. This is an extensive video breaking it all down, in addition to chapter 3 of the book on AIDS, which covers the financials and agendas of the Bill & Melinda Gates Foundation. They are essentially the revolving bank for the healthcare industry. Mind you, this was published in conjunction with the book on AIDS prior to their plandemic.

Weekly Dig It! Podcast

I also do a weekly podcast with The Speaker and The Sharp Edge that comes out every Friday. We cover hot news topics, our reports, and offer insights on different topics, as well as theories. We like to have a good laugh or two as well, because this world is pretty intense right now.

You can find us on: GabTV, FoxHole, YouTube, Bitchute, iHeartRadio, Odysee, Soundcloud, Spotify, Stitcher, and TuneIn.

I hope that each person willing to dive into these depths to strip away the illusions, finds comfort in the fact that by knowing the truth it leads us all to the possibilities that lie ahead – a world where we can all begin to let go of anger, betrayal and resentment and move forward together to create a more compassionate world with systems that work to everyone's benefit. Stop funding the beast and support one another.
